

APPENDIX

DOT SUFFIX

From December 1998, some station names have been suffixed by a dot. This applies to all occurrences of the name that appear on SPORTIS, APTIS, Tribute and Ascom B8050 machines. Its appearance on B8050 machines is superfluous, as its meaning is to indicate that additional versions of the name are available such as bus links etc. The following is a list of all stations noted with a dot suffix
